

Asbestos Certification and Documentation:

*This form must be completed for all renovation and demolition projects.

Form last revised July 30, 2024

Read the choices below, check the appropriate box, attach inspection reports as required below, and certify the provided information by signing on the second page.

___ The renovation or demolition involves a single-family dwelling or residential housing with four or fewer dwelling units that are not being renovated or demolished for commercial or public development purposes, therefore the building is exempt from asbestos inspection. (See § 36-99.7 C of the Code of Virginia.)

___ The initial permit for the building was issued on or after January 1, 1985, therefore the building is exempt from asbestos inspection. (See § 36-99.7 A of the Code of Virginia.)

___ The building has been inspected by an individual licensed to perform such inspections pursuant to § 54.1-503 and no asbestos-containing materials were found. (See § 36-99.7 A of the Code of Virginia.) ATTACH INSPECTION REPORT.

___ Affected portions of building have been inspected by an individual licensed to perform such inspections pursuant to § 54.1-503 and appropriate response actions required by section 36-99.7 A of the Code of Virginia will be undertaken. (See § 36-99.7 A of the Code of Virginia.) (Asbestos certification form for Re-occupancy required before final approval.) ATTACH INSPECTION REPORT.

___ The combined amount of regulated asbestos-containing material involved in the renovation or demolition is less than 260 linear feet on pipes or less than 160 square feet on other facility components or less than thirty-five cubic feet off facility components where the length or area could not be measured previously, therefore the building is exempt from asbestos inspection. (See § 36-99.7 C of the Code of Virginia.)

___ The building is not a school building and the renovation project consists only of repair or replacement of roofing, floor covering or siding materials and the materials to be repaired or replaced are assumed to contain asbestos and the asbestos installation, removal or encapsulation will be accomplished by a licensed asbestos contractor or a licensed RFS contractor. (See § 36-99.7 B of the Code of Virginia.) (Asbestos certification form for re-occupancy required before final approval.)

___ The building is not a school building and the renovation projects consists only of repair or replacement of roofing, floor covering or siding materials and sampling of the material to be renovated was accomplished by a licensed asbestos RFS inspection and analysis of the sample showed no asbestos to be present. (See §36-99.7 B of the Code of Virginia.) ATTACH INSPECTION REPORT.
